

MURALS

IMPACTFUL DESIGNS TO INCREASE SOCIAL MEDIA OUTREACH & TRANSFORM SPACES

WHY A MURAL?

Many building and business owners are investing in murals for promotional and decoration purposes.

A favourite example of ours is the Wynwood Walls in Miami. Wynwood is a fairly run down and poor area of the city, but since being taken over by mural covered buildings, street art, and the outdoor gallery The Wynwood Walls, tourism is through the roof, with the town being featured in so many videos, blogs, and social posts about Miami.

As well as being an excellent way of increasing your social media presence, murals create a feeling of community. They promote a sense of identity, belonging, and openness, and avoid the traditional ways of advertising and promoted content. Creating a tangible sense of place and increasing foot traffic, our work has a dramatic impact on passers by and customers.

WHY US?

We have been creating murals for 3 years, have been in the design industry for 5, and we know the importance of a high quality job that is attractive and professional. Working for clients such as FatFace, The Emirates Spinnaker Tower, Openreach, and The Mary Rose Museum in Portsmouth Historic Dockyard, we have an extensive background of projects, and know just what it takes to deliver exactly what your company needs.

From start to finish we use the highest quality materials to produce our work, as well as sharing the progress and final pieces on our own social media channels. (@2sistersuk on Instagram)

Everything's
Peachy

FACTS AND FIGURES

Companies from Nike to Gucci have commissioned murals that are part advert, part art, perfect for the ever growing social media craze. In 2017 Paul Smith invested in a mural to cover their store for Pride, with famous celebrities and the public posing in front of it, they gathered over 323,000 combined likes and views on Instagram.

On our own social media platforms we see an average of 75% increased likes and shares when posting murals and time-lapse videos of us creating them.

Our mural packages start from £750, including start to finish custom design work, high quality application, and video and photo content.

WE HAVE A NICE DAY

“OUR BRIGHTEST, BUSIEST, AND MOST SHARED EVENT YET!”

-Annarose, Events Organiser at Whiteley Shopping Centre

We were commissioned by Whiteley Shopping Centre in Fareham to create their Summer Circus Garden murals. They wanted something that would be eye-catching decoration for the event itself, as well as something that would increase their social media exposure.

By sketching designs, digitally creating the artwork and then hand-painting onto wood, we created 4 free-standing outdoor murals which made an excellent backdrop for whole event.
